

ALTMAN FOUNDATION

GUIDELINES

GENERAL INFORMATION

SPECIAL NOTE

Applying for foundation support is a time-consuming process on both sides. Before deciding to apply to the Foundation, please review our operating principles, funding limitations, and the objectives and results we seek as set out in this document. Thank you.

MISSION

To support programs and institutions that enrich the quality of life in New York City, with a particular focus on initiatives that help individuals, families, and communities benefit from the services and opportunities that will enable them to achieve their full potential.

VALUES

In carrying out our mission and making choices about how to invest our grantmaking dollars, we are guided in our selection process by our results-based orientation and by several overarching values that cut across program-area lines. These values are access, system-wide improvement, prevention and early intervention, self-sufficiency, the provision of high-quality services, and a focus on vulnerable populations.

The Altman Foundation:

- Seeks to increase meaningful **access** for New Yorkers to quality programs, institutions, and resources, both public and private;
- Encourages **system-wide improvement** and change while at the same time maintaining our tradition of direct service and the opportunity to test models in action;
- Prefers to support **preventive and early intervention strategies**;
- Supports efforts that help New Yorkers build and preserve **self-sufficiency**;
- Encourages innovation and funds programs and organizations that provide **high-quality services** based on best practices in their field and that exercise systematic efforts to track credible and meaningful results; and
- Has an interest in supporting programs that serve **vulnerable populations**, in particular children and youth from underserved communities, immigrants, and the elderly.

OPERATING PRINCIPLES

We define ourselves as investors and are interested in creating the highest possible levels of human gain for the grant dollars we have available. In that mode, we review proposals with the following questions in mind:

- What are the results from the project—meaning outcomes for participants—that provide the return on our investment?
- What are the chances those results will be achieved?
- Is this the best use of our money, given all alternatives before us?

To carry out our mission and achieve human gain, we make three types of investments:

1. **Investments in Direct Service**
In this area we support programs and projects that create human gain for people in our areas of focus. Historically, most of the grants in our portfolio have fallen into this category.
2. **Investments in Capacity Building**
At times we believe that making an investment in an organization so that it can achieve and sustain stronger gains for those served is the best investment we can make. In general, these investments are reserved for organizations with which we are already working.
3. **Investments in Systems Change**
At times we believe that the most pressing need is to make an improvement in the larger context of factors and forces that affect programs and organizations. The Foundation will allocate limited grant dollars to strategic policy, advocacy, and applied research initiatives that advance the Foundation's grantmaking priorities.

In addition, the Altman Foundation:

- Promotes connections among nonprofits, government agencies, and foundations, and other organizations doing complementary work in order to advance best practices and build knowledge within a given field;
- Seeks to leverage its limited resources by investing in issues, programs, or initiatives that have the potential to attract other funding sources, both public and private; and
- Initiates a limited number of program-related investments that provide low-cost loans to high-performing nonprofits with strong business models and the capacity to leverage other capital sources to advance effective programs or initiatives.

FUNDING LIMITATIONS

Please note the following:

As this year goes forward, we will continue our efforts to sustain high-performing current grantees seeking renewed funding.

While we have limited funds available for new, non-Foundation-initiated grantmaking, if, after reviewing our guidelines and grants lists, you believe that your work and the results you can already document achieving are directly and measurably in line with the Foundation's priorities, we want to know about what you are doing via Letter of Inquiry submitted through our grant portal, <https://altman.fluxx.io>. After receiving your submission, we will follow up with you if we need more information.

This does not apply to current Altman grantees, who should prepare full applications following the directions in the Proposal section on the grant portal.
